Agreement to Binding Arbitration

Consumers: If you are an individual consumer and not a business, any dispute, claim or controversy between you and Tesla arising out of, or related to, this Tesla Parts, Body & Paint Repair Limited Warranty is subject to binding arbitration on an individual basis in accordance with the Agreement to Arbitrate below.

Agreement to Arbitrate. Please carefully read this provision, which applies to any dispute between you and Tesla, Inc. and its affiliates (together "Tesla").

If you have a concern or dispute, please send a written notice describing it and your desired resolution to resolutions@tesla.com.

If not resolved within 60 days, you agree that any dispute arising out of or relating to any aspect of the relationship between you and Tesla will not be decided by a judge or jury but instead by a single arbitrator in an arbitration administered by the American Arbitration Association (AAA) under its Consumer Arbitration Rules. This includes claims arising before this Agreement, such as claims related to statements about our products.

We will pay all AAA fees for any arbitration, which will be held in the city or county of your residence. To learn more about the rules and how to begin an arbitration, you may call any AAA office or go to www.adr.org.

The arbitrator may only resolve disputes between you and Tesla and may not consolidate claims without the consent of all parties. The arbitrator cannot hear class or representative claims or requests for relief on behalf of others purchasing or leasing Tesla vehicles. In other words, you and Tesla may bring claims against the other only in your or its individual capacity and not as a plaintiff or class member in any class or representative action. If a court or arbitrator decides that any part of this agreement to arbitrate cannot be enforced as to a particular claim for relief or remedy (such as injunctive or declaratory relief), then that claim or remedy (and only that claim or remedy) shall be severed and must be brought in court and any other claims must be arbitrated.

If you prefer, you may instead take an individual dispute to small claims court.

You may opt out of arbitration within 30 days after purchasing the applicable Part or Used Part, by sending a letter to: Tesla, Inc.; P.O. Box 15430; Fremont, CA 94539-7970, stating your name, Vehicle Identification Number, and intent to opt out of the arbitration provision. If you do not opt out, this agreement to arbitrate overrides any different arbitration agreement between us, including any arbitration agreement in a lease or finance contract.

Businesses. If you are a business and not an individual consumer, any dispute, claim or controversy between you and Tesla arising out of, or related to, this Tesla Parts, Body & Paint Repair Limited Warranty is subject to binding arbitration on an individual basis, as follows:

Either party may take a dispute to binding arbitration in accordance with the then-current Streamlined Arbitration Rules of the Judicial Arbitration and Mediation Services ("JAMS"). The existence, content and result of the arbitration shall be held in confidence by the parties, their representatives, any other participants and the arbitrator. The arbitration will be conducted by a single arbitrator selected by agreement of the parties or, failing such agreement, appointed in accordance with the JAMS rules. The arbitration shall be conducted in English in Austin, Texas. The arbitration award shall be final and binding on the parties and the parties shall not have the right to appeal any such award. Each party will bear its own expenses in the arbitration and will share equally the costs of the arbitration; provided, however, that the arbitrator may, in their discretion, award reasonable costs and fees to the prevailing party. Each party hereby excludes and waives irrevocably any rights or application or appeal to the courts of any country otherwise having jurisdiction to the fullest extent permitted by law in connection with any questions of law arising in the course of arbitration or arising out of any award made, except for actions to obtain a judgment recognizing or enforcing an arbitral award or actions to take (or request any judicial or other authority to order) any provisional measure prior to the commencement of or during the arbitration proceedings for the preservation of its rights and interests.

Notwithstanding anything to the contrary above, if, due to a material breach or threatened material breach or default or threatened default, a party is suffering irreparable harm for which monetary damages are inadequate, or if a party is seeking to enforce an arbitration award obtained pursuant to this arbitration provision, such party may petition a court of competent jurisdiction for appropriate equitable relief.
